

Jianna Evans

Fayetteville, NC | (919) 218-7437 | jevansb6@gmail.com

Profile

Detail-oriented, early-career professional with hands-on experience in research, programming, and behavioral health. Adept at bridging technical and human-centered fields through analytical thinking, clear communication, and collaborative teamwork. Passionate about using technology to drive innovation in science, education, and healthcare.

Education & Certification

Fayetteville State University – Bachelor of Science in Computer Science (In Progress)

Expected Graduation: May 2026

Registered Behavior Technician (RBT) – Credential ID: RBT-24-341460

Issued: April 16, 2024 • Active

Experience

Research Intern – Department of Chemistry, Physics, and Materials Science

Fayetteville State University – Fayetteville, NC | Aug 2022 – Present

- Operate and interpret data from laboratory instrumentation to generate empirical evidence supporting compound identification structural analysis of novel materials
- Apply AI tools and machine learning algorithms to assess and optimize procedures for material synthesis and characterization
- Presented research findings to STEM professionals and academic audiences, demonstrating strong scientific communication skills

Registered Behavior Technician (RBT)

Already Autism Health – Fayetteville, NC | ABC's of Learning – Wake Forest, NC | Oct 2024 – June 2025

- Delivered individualized, evidence-based ABA therapy to children with developmental disabilities in a clinical setting, supporting targeted behavioral and communication goals
- Supported clients in achieving measurable developmental milestones through consistent, evidence-based intervention in a clinical setting
- Collected and documented behavior data to monitor client progress and inform ongoing treatment adjustments

Administrative Assistant & Registered Behavior Technician (RBT)

Preferred ABA Services – Columbus, GA | Feb 2024 – June 2024

- Implemented one-on-one behavioral interventions to support individuals with intellectual and developmental disabilities, promoting independence and quality of life
- Managed administrative operations including insurance claims processing, Prior Authorization submissions, and accurate client record maintenance
- Scheduled and coordinated therapy sessions while maintaining clear communication with caregivers to ensure consistent, high-quality service delivery

NIEHS NSCP Scholar – Integrative Bioinformatics Support Group

Research Triangle Park, NC | Jun 2023 – Jan 2024

- Conducted a comprehensive literature review on genomic analysis pipelines, with a focus on 3D genome structure and spatial data integration
- Designed a workflow for a bioinformatics wrapper tool to analyze three-dimensional genomic structures and enhance data interpretation
- Presented a proposed project plan to researchers at NIEHS and professionals in the bioinformatics field, incorporating technical feedback and project refinement

Infusing Computing Intern

North Carolina State University – Raleigh, NC | May 2020 – Aug 2020

- Assisted university faculty to develop, design, and enhance interdisciplinary curricula introducing computer science concepts to K-12 educators and students
- Improved software functionality by debugging, updating, and implementing Java plug-ins, and educational tools
- Engaged in team-based development and problem-solving to support inclusive computing education initiatives

Presentations & Publications

- NSCP Symposium, Research Triangle Park, NC, July 2023, Jianna Evans, Dr. Hamed Boston, Dr. Jian-Liang Li, “Developing a Customizable Wrapper for Hi-C Data Analysis” (poster)
- NC Space Symposium, Raleigh, NC, April 2023, Jianna Evans, Dr. Narasimhan Sujatha, Dr. Daniel Autrey, Dr. Bhoj Gautam, “Effect of Laser Wavelength on Raman Features of Ti3C2Tx MXene” (poster)
- Aryal, Girja Mani, Kandel, Krisha Prasad, Adhikari, Menuka, Evans, Jianna, Dangol, Hisila, Poudel, Madan, Pokharel, Sushil, Shrestha, Ramdeep, Gautam, Bhoj, and Neupane, Bhanu Bhakta. Understanding the material properties of alkali-treated lignocellulose fiber obtained from high-altitude Lokta bushes. Retrieved from <https://par.nsf.gov/biblio/10526738>. Biomass Conversion and Biorefinery . Web. doi:10.1007/s13399-024-05278-x.

Technical Skills & Abilities

- | | |
|--------------------|----------------------|
| • Java Programming | • Python Programming |
| • Bash Scripting | • SQL |
| • Data Processing | • Data Collection |

Current Project

Fayetteville State University – Building a custom Java Compiler | Jan 2025 – Current

- Study the architecture and source code of the Java compiler to understand its core components and functionality
- Build and test custom compiler versions with modifications to language features and syntax rules
- Develop a tailored Java compiler that enforces compliance with the AP Java subset by restricting unsupported features
